Deadline Set For Vaccine

Hancock County is going into the final week on clean-up of all horses not vaccinated for the Venezuelan Equine Encephalomyelitis. The vaccination program is to be completed by Sunday, August 21, 1971. After this date all owners of horses not vaccinated would be guilty of a misdemeanor, and upon conviction shall be fined not less than twenty-five dollars (\$25.00) nor more than five hundred dollars (\$500.00).

There are some horses that have not been vaccinated and County Agent John Smith would like to encourage all persons owning horses that have not been vaccinated to call his office so that a veterinarian can return to complete the program.

"We have had real good cooperation with the vaccination clinics held so far. About 98% of the horses in Hancock County have been vaccinated up to now. Again, I would like to encourage all persons owning horses or if you know of someone that has not been vaccinated, please contact the County Agent's Office 467-4631. We need to complete this vaccination program this week," Smith concluded.

NOT IN NOW
In Sylvan, Lauder's in last week's Echo, that should have read, "I do not appreciate the people who supported other candidates in the first primary who have now offered their support in my behalf." The word NOT was used instead of NOW.

Crime Commission Head Commends Supervisors

Robert O. Rasch, President of the Mississippi Coast Crime Commission, today commended the citizens of Hancock County for their deep appreciation of the courageous action taken by their Board of Supervisors in adopting, for immediate implementation, the more efficient structure of County Government in the form of the County Unit System.

"The plan, as adopted by the Hancock County Supervisors," continued Rasch, "is a proven, sound and efficient formula according to all available research on the subject. The good faith and intentions of this plan is clearly indicated in the creation of the three steps which will insure its success; central county purchasing; central pooling, maintenance and dispatching of equipment; and the employment of a County Administrator to execute the plan with

Supervisors Taking Closer Look At County Unit System

by Adoree Shortle
Echo Staff Writer

Denying that he had any knowledge of the county unit system resolution until it was produced at the August 9 meeting, Russell Elliott, board of supervisors president, said Monday that he felt the unit system was too ambiguous to accept at this time.

At the August 9 meeting, Elliott said he "knew nothing of the conditions set forth in the resolution" and felt that a blanket proposal was too indefinite,

particularly in regard to the salary to be paid to the County Administrator. The resolution calls for a qualified engineer, acting as a county administrator to be paid \$18,000 a year.

Elliott suggested that the resolution be submitted to the county attorney, Joseph Benvenuti, for study and consideration of amendments and possible changes.

Rejecting the suggestion, Benvenuti said, "I've read the resolution and I'm familiar with it. Anything I project would only be my ideas, but I think the board should discuss it and come up with their own ideas."

Dolph Kellar, originally the only dissenter toward the unit system resolution reiterated his objection to the system, based primarily on the cost to the county, stated that it was too late to amend the resolution, since it had been adopted by a majority of four.

Elliott said he thought the public should be given the opportunity to express their opinion, to modify or reject the unit system. Benvenuti said he felt this would not be an advisable move as he knows of no county law providing for this method of resolving the problem.

Elliott said, "I wasn't clearly understood that I am not opposed to the system but I do want all the details worked out before it is put into effect."

Benvenuti then explained that any decisions made on the system would not be binding indefinitely by this or any other board, and that if supervisors were to hold a public meeting on every issue, they "would be hamstringing before they start."

Peck Mauffrey interjected the opinion that it seemed the only thing left to decide was "where we're going to meet, when we're going to meet and what size table we'll need."

By unanimous agreement the board then decided to meet September 1 at 9 a.m. to discuss the system further, and then will present its decision to the public at a regular meeting the following Tuesday.

Union Calls Strike Against Global At MTF

Former Seabee Commander Dies

Capt. James M. Hill, Jr., commandant of Navy Seabees recovery operations for the Gulf Coast area following Hurricane Camille died Sunday at the Bethesda Naval Hospital in Maryland.

Capt. Hill was commanding officer of the Seabee base in Gulfport at this time two years ago and stories of heroic assistance by Seabee personnel to the stricken people of the Gulf Coast are legion. Under Hill's direction, personnel from the base performed countless rescue and rehabilitation tasks for the devastated towns and their residents, and even today respond willingly to calls for assistance in the continuing rehabilitation work in the Coast communities.

Hill was on his way to Washington for a new assignment when he fell ill more than a week ago. The 46-year-old Naval officer was admitted to Bethesda Hospital for surgery last week.

Know The Candidates

In order to better acquaint our readers with some of the candidates in Tuesday's runoff, staff writer Adoree Shortle interviewed sixteen of the candidates. The results of the interviews appear on Page 10. Although it is lengthy, we strongly urge you to read it carefully as the interview can give you an additional insight into each candidate's background, qualifications and plans for Hancock County.

WAVELAND VOTERS

The Hancock County Democratic Executive Committee has announced that voters in The Waveland precinct will cast their ballots in the trailer buildings at the Waveland School instead of the old school building. Alphabetical listings will be marked on the outside of the four buildings and voters should take note as to which building they should vote in.

NEW STUDENTS

New students who plan to enter either Bay Junior or Senior High School and who have not registered or filled out their schedules are urged to do so before August 26. Offices at both schools are open from 9-12 and 1-4 Monday through Friday. New students who do not register before August 26 must wait until Tuesday, August 31.

No Endorsement

The Hancock County Chamber of Commerce has issued the following statement to quash any rumors that may be circulating: The Hancock County Chamber of Commerce HAS NOT, WILL NOT AND DOES NOT endorse any political candidate whatsoever.

WRONG PICTURE

In Oscar Peterson's ad in last week's Echo, Walton Lader's picture was mistakenly used for Mr. Peterson's.

COUNT WRONG

In an article that appeared in last week's Echo, the vote count for Earl "Buck" Lader and Walter James Phillips was incorrectly stated. "Buck" Lader, 2384 and Walter James Phillips, 2145.

Labor union leaders at the Mississippi Test Facility called a work strike of all AFL-CIO members at 8 a.m. Wednesday morning in protest against Global Associates' refusal to recognize the union as representatives of the MTF labor force.

Global Assoc. won the Support and Technical Facilities contract for MTF, formerly held by General Electric Corporation and began operations at the site the beginning of August.

According to a union spokesman, union leaders met with Global officials at the test site July 14 and asked for recognition as a certified representatives of MTF employees. Representatives of the International Association of Machinists and Aerospace Workers had a similar agreement with G.E. sub-contractors, through union certification by the National Labor Relations Board in 1968.

Price also stated, "I believe that NASA, as a responsible government agency has not acted in a mutual way to see this work stoppage end, and that NASA is showing favoritism toward Global by awarding a sub-contract to Harrison Security (of Jackson) for the purpose of defeating the employees collective bargaining representation."

Price continued, "This sub-contract was in excess of \$20,000 of Global's bid for the same services, therefore recognizing the Security Guard's union and denying recognition to Global Associates' employees."

Glen Elkins, Global vice-president from Oakland, gave the following statement to the Echo Wednesday explaining the company's position: "The issue involved is whether or not Global is legally obligated automatically to recognize the IAM represented some of these employees when they worked for various sub-contractors at the test facility."

"The question has been submitted to the National Labor Relations Board for determination and pending that determination Global Associates feels that only its employees have the right to determine which, if any, union will represent them."

"If the IAM were to force an election and the election resulted in the selection of the IAM then Global would certainly honor that decision and bargain in good faith with IAM employees, for that matter."

"It is further Global's position that it must maintain services at the test facility and therefore with its replacement personnel is necessary to insure the continued operation of the test site."

Fund Names Local Chairmen

Joseph W. Gex of Bay St. Louis has accepted the overall campaign chairmanship for the 1971 Fall campaign of the Hancock County United Fund.

He is a practicing attorney, associated with the law firm of Gex, Gex and Phillips, and is married to the former Virginia Alexander of Columbus, Ohio. They have one son, Joseph II, ten months old.

Mr. Gex is the third generation of his family to be active in civic and business affairs in Hancock County. His grandfather, Walter J. Gex, owned a law office in Bay St. Louis in 1899, and in 1920, his father, Walter J. Gex, Jr., joined the firm. Mr. Gex is the grandson of Dr. H. A. Elledge, who practiced medicine in the area for approximately twenty years.

Mr. Gex is a graduate of St. Stanislaus College, and is a member of Our Lady of the Gulf Parish. Attending the University of Mississippi, he earned a degree in business administration in 1966, majoring in banking and finance, and in 1969 he received his degree in law. While in college he was a member of the Kappa Sigma

Areas Opened To Bait Dealers

The areas north of the Louisville and Nashville railroad bridges have been opened on a limited basis to licensed live bait dealers according to Norton Bass Sr., chairman of the Mississippi Marine Conservation Commission. The areas became effective Friday, August 13 and will be limited to the morning hours on Thursdays, Fridays and Saturdays.

In this order, the commission agreed to permit live bait shrimping north of the bridges if shrimp south of the bridges became insufficient, and if the commission's marine biologist would verify this and recommend the areas be opened.

Biologist William J. Demoran made such a recommendation, and stated the principles of conservation would not be hampered at this time.

Shrimping activities in these areas will be under constant surveillance of commission personnel, and any bait dealer caught violating the law will have his license revoked, Bass noted.

Board Accepts Low Bid On Railroad Spur

The Hancock County Port and Harbor Commission asked the county supervisors Monday to accept low bidder, William A. Smith, Construction Co. of Houston, Tex., for construction of a railroad spur in the industrial area. The supervisors agreed to accept the resolution after a motion was made by Dolph Kellar and seconded by "Peck" Mauffrey.

Smith, whose low bid was \$462,235, and well under the commission's advised \$690,000 for the project, advised the Port and Harbor Commission that the project would be completed within four to six months. He also stated that he was very familiar with the area because his company had been awarded some of the major construction contracts for the Mississippi Test Facility.

HUBERT HUGHES, director of Operations, returns in Waveland welcomes visitors to the dedication ceremonies at Elwood Bank Tuesday. The park was completely renovated by Upturn and the ceremony was attended by various local and county officials.

LOCAL CHAIRMEN

(CONTINUED FROM PAGE 1A)
Club and the Bay St. Louis
Jaycees.

Robert Boudin, who has accepted the chairmanship of the Bay St. Louis area for the 1971 Campaign of the Hancock County United Fund, is well known for his humanitarian and civic achievements. He recently became associated with the Dixie Realty Company, having formerly been employed by the General Electric company at the Mississippi Test Facility for a period of seven years. He is a member of Our Lady of the Gulf Parish, and is married to the former Alice Hargis. They have two children, Penny and Joey.

A past president of the Bay St. Louis Jaycees, Mr. Boudin led the club to a year of excellence, meeting all goals, and being named the number one club in the state of Mississippi for community involvement. He originated and carried through the ideal of a football bowl game in 1970, which produced a profit of \$1,200.00. This money was given to three local boys to help fund their freshman college year. Under the leadership of Mr. Boudin, the Jaycees built two parks in the Bay St. Louis area and restored the Youth Center, which is presently open four nights weekly to local teenagers. They gave an all day Christmas Party for our area children, their families and friends, and later conducted a successful bingo to raise funds for the children.

Mr. Boudin is organizer and president of the Gulfview Hunting Club, and is state director of the Mississippi Jaycees, and is a member of St. Stanislaus Sideline Club.

Edward "Scotty" Thompson, chairman of the Waveland Division of the 1971 campaign of the Hancock County United Fund, is a well known professional retired engineer, having recently served as "building official" on the Governor's Emergency Council to coordinate building code enforcement in the counties of Hancock, Harrison and Jackson following the Camille disaster. Mr. Thompson was part of one of the early teams on the space program, has been a resident of Waveland for more than nine years, and came to our area with one of the first groups associated with the Boeing Corporation to construct the Mississippi Test Facility. He later became associated with the Ralph M. Parsons Company

**City Re - Structures
Civil Defense Unit**

At the August 2 meeting of the Bay St. Louis Commission Council, a resolution was passed creating a city ordinance to "establish a Civil Defense Council in and for the City of Bay St. Louis."

By this action the city administration re-structured the Civil Defense organization for the municipality departing from an original agreement with the county, whereby the county Civil Defense council served both the county and city.

Section 8610-09 of the Mississippi Code of 1942 specifies that each municipality of the state is "authorized and directed" to establish a Civil Defense organization to function within the jurisdiction of the municipal administration, if it so desires, and to appoint a director of Civil Defense.

According to a directive from Prentiss Baughman, Miss. Civil Defense deputy director, under the new management the city CD organization is administered directly by the city administration, and monitored directly by state Civil Defense. Baughman's letter states that "the municipal director, where there is an independent council is responsible only to the governing body of the municipality which appointed him in carrying out his duties."

Bay St. Louis Civil Defense director J. R. Laviole was appointed to the position by the city council May 18, 1970 and has been serving in that capacity ever since.

A report from a recent federal audit of the Bay St. Louis CD organization gave the council a 99.99 percent rating of excellence. In answer to a

query from Laviole on suggestions for improvement within the organization, federal officials returned the nearly perfect rating with no suggestions for change.

**Submits
Budget**

Charles Hill, Hancock County Port and Harbor director, in submitting the Port and Harbor budget for 1972-73 to county supervisors requested that the approved budget include operational costs for the railroad spur to be built in the Port Industrial area.

Hill asked the board of supervisors for additional income through an amendment to cover "operation of the railroad for the first year until sufficient income is available to take over."

The eight mile spur track, when finished, will be a link in the provision of inter-modal facilities at the port.

The Port and Harbor budget total for the coming year is \$110,000.

Registration Set

Pre-registration for students who have not previously attended North Bay Elementary School will be held Monday, Tuesday and Wednesday, August 23, 24, and 25 from 9 A.M. to 3 P.M.

This pre-registration is for students in grades 1-6 who have just moved to the area or for other reasons have not attended North Bay previously. Students must be accompanied by a parent or guardian and should bring previous school records which contain their names and addresses.

Students who have previously attended North Bay will report on August 27 for registration.

Cooperation Given Bay Civil Defense

J. R. Lavole, Bay St. Louis Civil Defense Director, has stated that "excellent cooperation" has been received from various organizations and municipal bodies in offering help for a CD disaster evacuation plan.

J. D. McCullough, superintendent of the Bay-Waveland Municipal School District has authorized the school system's entire transportation facilities of eight 60-passenger buses to be made available to city CD for emergency evacuation purposes. In addition, McCullough has offered the use of two school buildings, Bay Junior High on Second St. and North Bay Elementary on Dunbar, for evacuation points. In case of extreme emergency, the third school, Bay Senior High on Blue Meadow Road will be available.

Other organizations and businesses pledging help include W. A. McDonald and Sons, St. Augustine Seminary, Monticarlo Plumbing Co., Magnolia State Supply and Dilman Insurance. Vehicles suitable for transportation as well as motorized working equipment such as trucks, tractors, front-end loaders, etc., have been listed by the above companies as being available.

Lavole said other organizations contacted are in the process of complying with usable facilities.

A complete Civil Defense Emergency Evacuation Plan for Bay St. Louis will be submitted to all residents and agencies of the city within the next few days, Lavole added.

Shower Given Bride - Elect

Miss Susan Hayward, bride-elect of Gilbert A. Gayant, was honored with a miscellaneous bridal shower Thursday night hosted by Miss Sandra Gayant at her home on Carroll Avenue.

A blue and white color scheme and daisies decorated for the occasion. The bride, who wore a blue and green plaid dress, was presented a corsage of daisies. The mothers, Mrs. John Hayward and Mrs. Gilbert Gayant and grandmother, Mrs. Anthony Flisio, were each given a corsage of daisies.

Games were played and prizes won by Mrs. Sam Favre and Miss Patricia Deppe.

Miss Hayward and Mr. Gayant will be married Saturday, August 21, at Our Lady of the Gulf Catholic Church.

P.R.C. Begins Registration Tuesday

The summer vacation, that many students thought would never come to an end, is over. Registration for the fall semester at Pearl River Junior College begins Tuesday, August 24. The opening date for all dormitories is 3:00 p.m., Monday, August 23.

Students who have not made an application to attend PRC can still be admitted on August 24. Students who do not have a ACE or ACT score on file at the college must take a test at 8:00 a.m., August 24, in the Science Building.

Buses will run August 24 as on normal class day schedule. There will be no charge for the first day.

The registration schedule is as follows: Sophomores: Academic and Vocational, A-8:00-9:40; B-9:40-11:20; C-11:20-1:00; D-1:00-2:40; E-2:40-4:20; F-4:20-6:00.

Freshman-Vocational and Academic: A-8:00-1:40; B-1:40-2:20; C-2:20-3:00; D-3:00-3:40; E-3:40-4:20; F-4:20-5:00.

Buses serving the Bay St. Louis area will leave Bay St. Louis High School at 6:50 a.m., leave Kila at the crossings of Highway 602 and 603 at 7:20 a.m., leave Ship Hollow at 7:30 a.m., and leave Ship Hollow at 7:30 a.m.

GENE ESTAPA, left, a 6' 10" lb. quarterback from Bay St. Louis, is expected to fill the signal-calling slot this season for the Pearl River Junior College Wildcats. Gene shared the Quarterback job last year with Dennis Wilson who was chosen the outstanding back in the conference. Head Coach Russell stated that Estapa has the size and experience to be one of the better quarterbacks in the league. Gene is the son of Mr. and Mrs. Bert Estapa of Bay St. Louis. Nathaniel Fairconque, right, a 175 lb. 6' 1" tailback is also from Bay St. Louis. Nathaniel had a real good spring practice and should be ready for a good season. Nate is the son of Mr. and Mrs. Albert Fairconque of Bay St. Louis.

GOLDEN TOUCH OF HOSPITALITY

BY JANE ASHLEY
Glaze Guards Fresh Flavor

A clear glaze made by sweetening the fruit's own juice and thickening it with corn starch is one of the best ways to seal in the tree ripened flavor of fresh peaches.

The filling for glazed pies is top-of-the-stove cooking which is such a boon in hot weather. Bake the crust early in the day to have it ready to fill and chill. The glaze itself calls for just two minutes of cooking.

Peaches, are ideal, for this type of pie.

BOATING SAFETY STARTS WITH "U"

"Dreamboat" standing aboard a Crestliner dreamboat won't stand for pollution. She's got the litter problem in the bag, a special bag which makes storage of soft drink bottles and cans a soft touch.

The letter "u" has a unique history. A descendant of the letter "v," it is related to "f," "w" and "y." Its original forms were in Egyptian hieroglyphics, Phoenician and Greek writings. For a time, the Romans used one sign for three signs, namely "u," "v" and "w."

The letter's relevance to boating extends far beyond the term "U-boat." When it comes to boating safety, here are some precautions that spell initial success:

Use caution when another boater is waving to you. His "friendly" ways may actually be a signal to steer clear.

Understand all the various distress signals. One recognized signal used on small boats is to slowly and repeatedly raise and lower the arms outstretched to each side.

Unintelligible words over a ship radio can spell doom in an emergency. Regardless of how excited you may be, speak clearly and slowly.

Uninvited guests on board can wreak havoc with the owner's safety precautions. Don't assume you're welcome aboard unless the skipper offers a specific invitation.

Untidy housekeeping makes for accidents. The makers of Pepal-Gala urge that you keep all soft drink containers for appropriate land disposal. Whether you're a woman or a man, make sure that your boat is ship-shape.

Underway, don't come too close to other boats. The wake your boat leaves can endanger other crafts.

Urgent warnings from other boats — whether over the radio or by hand or flag signals — should always be heeded. If you were in trouble, you'd expect other skippers to show the same courtesy which, incidentally, can save lives.

Follow these suggestions and your safety record as a boater will be unmatched.

OSCAR PETERSON 1200

**ELECT
OSCAR PETERSON**

IN THE SECOND PRIMARY

(Ed. Pol. Adv.)

ELECT Oscar Peterson

Supervisor, District No. 3 Hancock County

TO THE VOTERS OF HANCOCK COUNTY:

I wish to take this opportunity to thank everyone who supported me and was in any way responsible for helping me get into the second primary.

It is with a deep sense of gratitude that I again ask your support in the second primary. I also earnestly solicit the votes of those who saw fit to vote for any of the defeated candidates. All of my opponents were very worthy people, and I feel that they can tell you in all sincerity that I ran in the second primary.

To those people who might be inclined to vote against a candidate because someone you dislike may be supporting him, I say to you that all of us should lay aside such a method of determining the person for whom we should vote. We should all look at the matter in terms of what is for the best interest of HANCOCK COUNTY.

From a practical standpoint, we all realize that some of the things that have happened in the past, we have sometimes been the victims of who is the lesser of two evils. This is the negative type of thing that should never be. We should have a situation of having two good people in a race and having a choice of who is the better of the two. It is my sincere belief that we now have such a choice. I was very proud of the fact that the people of this county put into the second primary some very fine and able candidates, even though there were some good substantial people eliminated in the first primary. I do hope that the defeated candidates realize that we all can't be winners, and that they will help us to make wise choices in the second primary.

As we all know, many candidates have platforms and after elections those platforms sometimes grumble like match sticks and a lot of resolutions go down the drain. I can assure you that the planks in my platform are not a bunch of match sticks and that I shall exert every effort to bring to reality those things that you and I know need to be done. I believe that we have a lot of things to do in Hancock County. I believe that we have a lot of things to do in Hancock County. I believe that we have a lot of things to do in Hancock County.

I intend to work with the unity of Bay St. Louis and our State and Federal agencies to accomplish this program. The reason that I think this is so important is the fact that some of the business people have suffered terribly and are having a hard time holding on to what assets they have left. The ravages of Hurricane Camille. The beach is also a wonderful drawing card for our greatest industry which is tourism. The lack of access to our beaches has no doubt cost us thousands of dollars to other places.

Even though I am not a doctor, I am a doctor of education and I profess to be an educator. I do not see the need for the proper testing of our youth. I believe that academic tests should be stressed and promoted in our schools. It has been estimated that seventy (70) percent of the people in this county never get into the occupation or profession to which they are best suited. This is a waste of our Creator's most precious gift — the brain and manpower of our county. All of us would be more productive in the final analysis if we found out at an early age what our capabilities are and through education developed our capabilities. Let's quit wasting our youth and give them good academic tests and good educational facilities. For those who are not college material, let us work towards providing them with good vocational training.

It is my opinion and firm belief that with good public officials we can promote efficient and honest government that will attract business and industry. Certainly interested investors will look at the political atmosphere of a prospective location and the tax structure. No one wants to be taxed to death. I believe that our county has sufficient funds to operate efficiently and without any further increase in taxes. Wise spending of what we have will get much done.

Once we attract business and industry, then our children will have a better future and state and local employment will be increased. We will have a better future and state and local employment will be increased. We will have a better future and state and local employment will be increased.

I am not a doctor, I am a doctor of education and I profess to be an educator. I do not see the need for the proper testing of our youth. I believe that academic tests should be stressed and promoted in our schools. It has been estimated that seventy (70) percent of the people in this county never get into the occupation or profession to which they are best suited. Let's quit wasting our youth and give them good academic tests and good educational facilities. For those who are not college material, let us work towards providing them with good vocational training.

building good hard-surfaced roads. Once all of the roads are hard-surfaced, the maintenance costs will drop to a minimum. If elected, I fully intend to promote a policy of allocating a given percentage of road and bridge funds to a paving program that will, one day, result in all roads being hard-surfaced.

I have also stated that I intend working with the legislature, and I feel that all supervisors should, since they as a whole exert a great deal of influence in this state, favor a uniform tax on automobiles. From a stand point of fairness and justice, all automobiles of a like model and make should be taxed the same amount regardless of where it is located in the state. As it now stands, the amount of tax on a given automobile is different in the various counties because of a different millage applied to a statewide assessment on automobiles.

I also favor more aid to the aged. Inflation has eaten away the savings of many elderly people, and the cost of living has skyrocketed so that people on fixed incomes have to struggle for an existence. I think that we now have too many state agencies and that by streamlining our state government, we can have more funds available to help the aged and underprivileged without any raise in taxes.

The fact that I am running for the office of supervisor does not necessarily limit me to road and county finances. These things are of prime importance. However, I think that a supervisor should certainly try to influence the legislature in matters which affect his people.

I have noticed in the past that sometimes supervisors have a tendency to overspend in the early part of the year when most taxes are collected. This, of course, leaves them short during the balance of the year. This is something that should never be. A supervisor should divide his anticipated revenues so that he will have sufficient funds to carry him the entire year.

I think that public officials should operate on a sound and realistic budget and stick to it. If a budget is just another piece of paper, then why should we even be bothered with it. I stand for equalization of tax rolls in a fair and impartial manner. No one likes to pay taxes, but this is something we all must do. The unpleasant task is perhaps made a little more bearable when we know that our neighbor is paying his just and proportionate amount and bearing his share of the load.

It seems to me that there has to be a limit on Federal, State, and local taxes. The public has had about all of the taxation it can stand. It is now time to bring our present runaway tax trend to a halt. Only a stable government composed of honest, capable, and efficient public officials can do this. Political debts and favors should never be at the expense of the taxpayers.

Summarizing the foregoing, I would like to briefly point out that I am for the following:

1. Immediate repair of the beach road.
2. Promotion of the tourist industry.
3. Promotion of proper aptitude tests and good educational facilities for our youth.
4. Promotion of business and industry.
5. Hard-surfacing of all roads in the county as a long range program.
6. Allocation of a given percentage of all road and bridge funds each year to a fund for hard-surfacing all roads in Hancock County.
7. Imposing the same tax on all automobiles of a like model and make throughout the state.
8. Equalization of tax rolls.
9. Proper budget controls and a sound fiscal policy.
10. The creation of a good political atmosphere that will make business people sit up and take notice and one that will make our own citizens proud of its public officials.

I believe that the results of the election on August 3, 1971, mean that we have a new day for our county. I sincerely wish that the results of the second primary on August 24 will tell that day with sunshine so that all of our citizens can look forward to a greater and better Hancock County than it is today. We can have a better Hancock County than it is today. We can have a better Hancock County than it is today.

Respectfully Submitted,
Oscar J. Peterson

JAMES A. (JIM) LADNER

**SHERIFF
HANCOCK COUNTY**

The James A. (Jimmy) Ladner Family

Hancock County needs a man who is young enough to understand the problems of the youth of the community, yet possesses the maturity to run the important office of Sheriff efficiently, and a man who is eager to dedicate his every effort toward capable and impartial law enforcement.

I, Jim Ladner, feel that I am the man to serve you as Sheriff. When elected, I will further study law enforcement by enrolling in the Mississippi Police Academy in Jackson, which offers a course in modern and up-to-date techniques in law enforcement.

Children's Theatre Draws Large Audiences

An estimated 220 children and their parents attended the two performances last week of "The Princess Who Could Not Dance", presented as the Little Theatre's annual summertime program for young audiences. In addition, approximately 100 adults (chiefly families of the actors) saw the dress rehearsal by special invitation.

Produced and directed over a two-month period by Sharon McKenna, with technical direction by Matt Hunter and Barry Burke, the one-act play by Margaret Bland contained such fairy-tale ingredients as a castle, a king and queen (played by Victor Frankiewicz and Kathleen Stiefel), a little princess and a handsome prince (Beth Paul and Walter Turcotte), assorted de-lighful subjects, and even a maypole dance. The cast of eighteen ranged from children in the second grade to high school graduates, most of whom had never participated in a theatrical production before.

They all performed exceptionally well, they were beautifully costumed, and both they and their director deserve sincere applause. Special credit should go also to Penny Stamm for art work on the charming stage set, and to Cheryl McCulloch and Melissa Lagarde for the natural and effective make-up on the actors.

Supporting roles were played by Barbara Bostick as lady-in-waiting to the princess, Richard Stamm as the chancellor, Toni Frankiewicz and Alan Lagarde as the royal pages, Barbara Barkley, Elizabeth Lagarde, and Karen Trudell as the dancing mistresses, Ellie Marquez as the old woman who solved the mystery of why the princess could not dance, John Walton as the duke, Jama Wade as the peasant woman, and Virginia Spratley, Beth Spratley, Pat Niven, and Margaret Peranich as the peasant children.

The Children's Theatre has been presented now for three summers as an additional benefit of the Little Theatre community. Its aim is not only to entertain the children of the area but to interest them in attending plays in the future and perhaps in participating in them. As evidence of the success of this project, a little girl was overheard asking Miss McKenna after the last performance if she might have the queen's crown. "No," smiled Sharon, "but I'll tell you what you can do. Next summer you can try for a part in the play and maybe you can be a queen yourself. The crown will be right in her waiting for you."

"Oh, how wonderful," she said, moved away, feeling the crown already on her head. As Shakespeare said, "The play's the thing".... and even today it's pure magic.

SOME CRAB! The above photo shows Lloyd McLaughlin, holding the big crab. It measured 22 inches from tip to tip of the claws. Lloyd said he has caught many big crabs around Clermont Harbor but this monster was tops. It was full, fat as well as edible.

Poor John. Money just seemed to slip right through his fingers. Every time he planned to stash something away, there wasn't anything left.

Then John decided to join the Payroll Savings Plan where he works. Now, an amount he specifies is automatically set aside from his check before he gets it. And invested in U.S. Savings Bonds.

Because John has become such a saver, he's been able to forget about it. When he gets around to remembering, he's going to have quite a nest egg laid away. And now there's a bonus interest rate on all U.S. Savings Bonds for 1970-71, 3 1/2% when held to maturity of 5 years, 10 months (4% the first year). That extra 1/2% payable

as a bonus at maturity, applies to all Bonds issued since June 1, 1970, with a comparable improvement for all older Bonds.

If you keep forgetting to save something out of your check, join the Payroll Savings Plan and let somebody else do the remembering for you.

Glazed Peach Pie
1 (9-inch) baked pastry shell
3 pounds fresh peaches, peeled and sliced
1 to 1 1/2 cups sugar, depending on the ripeness of the fruit
3/4 tablepoons corn starch
1/2 cup water
Whipped Cream

Mash about 1/2 of the peaches. Mix sugar and corn starch in saucepan. Add water and mashed peaches. Cook over medium heat, stirring constantly, until mixture comes to boil and boils 2 minutes. Remove from heat. Cool. Fold in remaining sliced peaches. Pile into pastry shell. Chill. Serve with whipped cream. Makes 8 to 10 servings.

Note: To make Glazed Strawberry Pie, use 3-pint of washed and hulled strawberries for 3 pounds of peaches. (Mash 1 pint). Add a few drops of red food coloring after removing mixture from heat.

It is with a sense of high honor that I appear in this Newspaper to thank you, the People who voted for me, Cornelius J. Ladner, on the 3rd day of August, 1971. I thank you from the bottom of my heart. I regret that I am unable to thank each one of you individually. I wish I were able to do so.

This Newspaper provides me with the opportunity again to tell you how much I enjoyed the privilege of meeting each one of you and the courtesies that you extended to me in your home and business. It was gratifying to see so many of you wanting me to be your Public Servant, even though we did not make it.

I have frequently found in the forefront of the fight great obstacles placed in front of me. You have always known that I will give you my best to demonstrate the issues at hand for the good of all the People.

Now, since my Campaign has ended, I have returned to the Practice of Law, my Profession, at 124 Main Street, Bay Saint Louis, Mississippi.

Again, I would like to sincerely thank all those who supported and voted for me.

SINCERELY,

A new day has come to Mississippi.

The people of Mississippi demand fresh, new leadership... leadership that is sober, honest and aggressive... leadership that serves the people instead of the political machine... leadership that is not tied to vested interests.

There are critical needs in Mississippi—highways, education, employment, economic development and better use of state money.

Bill Waller has proven himself as an administrator, an attorney, a diligent public servant. To restore confidence in our leadership we must elect the man who will speak openly and honestly on every issue. Bill Waller will bring to the governor's office an excellent legal mind, administrative capability and determination to solve our state's problems. Bill Waller will bring dignity and respect to the governor's office.

This time let's make a change

OUR INTEREST IN ENGLAND'S FUTURE

JOHN J. SYNON

A person with a tilt in his head can buy that tilt if he wants to. There will always be an England - but I would suggest it isn't necessarily so.

We'll see. During the next 12 months a crisis in Britain's economic affairs will be reached and we'll see, then, what's what with Albion.

The situation, has been building for more than 20 years, now, since an unappreciative British electorate tossed an aging Churchill onto the slag heap; since England, decided socialism was the route to Elysium.

Some Elysium: Over these 20 years the labor unions have gutted the place. Moreover, the foot-dragging entrepreneurs are not without grievous fault. Where boldness was called for, they were timid. And the result, this day, is a bare-bones land that is on the verge of economic collapse.

England's new man, Edward Heath, knows this; that is why he is hanging tough with the strikers. He can't give in to their demands because there is nothing more to give.

"Our feet," Heath says, speaking of his no-quarter attitude, "are set on the path and we will not turn back."

He can't turn back. Harold Wilson, the socialist prime minister who led the wastrel's dance, understands these economic facts of life as well as does Heath. That is why the preening, ever-ambitious Wilson is making little or no serious effort to unhorse his successor. Wilson's day is done.

Heath, however, though his own opposition to the wheezing John Bull into his feet.

One hopes so. But if Heath fails, what then? What, besides the breadlines, bankruptcies and national demoralization sure to ensue?

The answer is Enoch Powell, the hard-boiled, no-nonsense, popular, political figure in England.

There are two unquestioned things that may be said of Powell. 1) He is the brainiest man in English public life and 2) He has the courage to say what he believes to be the truth.

Heath "broke" with Powell prior to the election that saw Heath upset Wilson. Powell's outspoken racial views caused the rupture. Even so, the rift between the two Conservatives seems to have carried with it overtones of a gentleman's agreement.

Powell, after the break, continued to hammer at Wilson and his influence on the voters is credited with making the difference for Heath.

Powell preaches a two-pronged doctrine: He urges that the blacks be sent back to wherever it is they came from, and he opposes British entry into the Common Market.

Powell's is no lost voice. The Daily Express, a Beaverbrook newspaper with more than four million daily circulation, is in Powell's corner, and The Evening Standard, another of the Beaverbrook string, is almost lyrical in its support of this plain-spoken man. All of which gives Powell the shoring he needs to serve as back-up man for Heath.

So, we will see. No doubt.

HOW TO BEAT THE HEAT

Nothing's new under the sun? Don't be too sure! Recent research, conducted under a broiling summer sun, has yielded some intriguing new ideas on beating the heat. Here are some of them - to help you play it cool during the warm weather months:

1. Keep your shirt on! Your shirt, that is - because it not only increases comfort by absorbing perspiration, it also protects your skin from salt irritation.

2. Take neither hot nor cold showers. A hot shower or bath can stimulate you with a long-lasting and oppressive feeling of heat - much the same as standing in the sun. Cold water, on the other hand, stimulates the blood vessels in your skin, which retards the body's natural cooling process.

3. Get up early, but well. Heavy eating causes your stomach, and the harder it has to work, the hotter you'll feel. Remember, too, that you burn up as many calories in hot weather as in cold. Consequently, don't give in to an urge to substitute light, low-energy meals for the relatively heavy - but nutritious - foods you need.

4. Drink plenty of liquid. You may not know it but, on a really hot day, you can pour off as much as 15 quarts of water! And, your normal thirst mechanism won't make you sufficiently thirsty to replace it all. Make sure, then, to compensate by drinking at least one glass of liquid every hour.

5. Conserve your energy - especially on weekends, when you have the opportunity to really rest up. "Must do" chores should be handled as easily as possible. It's a lot less work, for instance, to water your lawn with a plastic hose instead of a rubber one. Monsanto's new Flex-Tape is made with a combination of rubber, vinyl and nylon cords. Wear-Dated® and guaranteed for life, it weighs considerably less than rubber hoses and can be comfortably carried - not lugged.

6. Sleep more. Extra rest is important, and doctors advise that you sleep an extra hour each night during the hot weeks. If you don't have an air conditioner, you might choose more comfortably on muggy nights if you put your mattress on the floor. Place hot air view, you will be surrounded by the coolest air in the bedroom.

7. On the hottest days, don't go to the beach! When the sun beats down on the sand, temperatures at ground level can easily reach 140°. And, while a dip in the water may temporarily cool you off, the hot sun and beach surroundings usually add more heat than even cool water can cope with.

If you follow these suggestions, you may, indeed, find something new under the sun - a cooler, calmer, more relaxed you!

- Has been available at the Court House to meet any citizen.
- ACTIVELY SERVED YOU THE ENTIRE FOUR YEARS AND EXPENDED EVERY EFFORT TOWARDS PROGRESS.
- "PLANNED THE COUNTY WORK AND WORKED OUT THE PLANS"

In the past four years, I have shown my independence in practical ways, by practical actions. Attorney work has been split up. Bank depositories have gone to more than one bank. Stock insurance companies have had the opportunity to handle county insurance. I believe this demonstrates INDEPENDENCE.

INDEPENDENT: RE-ELECT RUSSELL ELLIOTT

BEAT 5 SUPERVISOR

CPA, POL. ADV.

ELECT
K.G.
McCarty
COUNTY
SUPERINTENDENT
OF EDUCATION

I seek the office of County Superintendent of Education fully convinced that I have the ability, courage and education to perform the duties of this important office. I want it unequivocally known that I entered this race because of a desire to serve the boys and girls of Hancock County. When elected, my hands will not be tied nor my actions restricted. My allegiance will be to all of the people of Hancock County in serving all segments of education. I want all to know that the Education Department will be an agency dedicated to service and leadership.

I want to thank the people of Hancock County for giving me the opportunity to serve them twelve years as Superintendent of Education of Hancock County.

I have no introduction to most of the people, but to those who have moved into our county in the past few years and I have not had the opportunity to meet, during this campaign, I submit this biographical sketch of myself.

I was born and reared in the North West part of Hancock County in the Aaron Academy Community. I attended the Aaron Academy Grammar School and completed the eleventh grade at Pikeville High School. I finished high school at Sellers Vocational High School. After finishing high school I entered Perkins Junior College, finishing the two years required course. I entered Mississippi A & M College, receiving a B.S. degree in education.

After finishing college, I came back to Hancock County to teach school. I served as principal at the Catfish Grammar School one year. I was elected Vocation Teacher at Sellers High School and I served in that capacity for three years. I was principal of Orange Grove School from 1935 to 1944. I was principal of Orange Grove School in Jackson County from 1944 to 1950. I taught the Veterans on the Farm Training Program from 1950 to 1953. I was Superintendent of Dedalus High School 1953-1954. I was elected principal of my home school 1954-1955, the school was discontinued and consolidated with Pikeville High School.

I taught science and math in the Boothville Elementary School in Pikeville, La., from 1955 to 1960. I served as county superintendent of education of Hancock County from 1960-1964. I taught in the public schools of Louisiana from Jan. 1964-1966. I was employed from March, 1966, with the Federal Adult Education at Dedalus High School until August, 1968, in Hancock County.

My wife is the former Miss Irene Cuevas, daughter of Mr. and Mrs. N.A. Cuevas of Kila. We were blessed with two children, Kenneth, Jr., and Maribel. They both reside in Hattiesburg, Miss. My son Dr. Kenneth McCarty is employed as a history instructor at the University of Mississippi, Southern College. My daughter and her husband Mr. and Mrs. Kenneth Kach own and operate the Wagon Wheel Restaurant, Motor and Western Store at Hattiesburg, Miss.

I attended Miss. Southern University during summer months 1956-57 and '58 receiving my M.A. degree in School Administration which qualifies me to hold the office of Superintendent of Education. This M.A. degree entitles me to a double A.A. Certificate in School Administration from 1960 to 1964. She is presently employed as a primary teacher at North Bay Elementary School.

I want to thank the people of Hancock County for electing me County Superintendent of Education in the past. If you elect me again, I agree to do the following things:

1. I will see that the school buses will be in mechanical shape to get your child to school on time every day.

2. I will cooperate with all school officials to make Hancock County schools one of the best school systems in the state.

3. I will strive to get our county schools on an A rating.

4. I will cooperate with the elected Board of Supervisors every way possible to make our school system one of the best in the state.

5. I will cooperate with parochial, private and public schools as I have in the past.

6. I am going to visit each school once a month during the school term.

I want to appreciate if each voter would require to my record as past County Superintendent. I would appreciate if any voter would call me, phone 607-1252. I will be glad to come to your home and discuss any educational problem with you.

I sincerely solicit your support and assistance in the second primary August 24, 1971.

Bridge over troubled waters.

It's easy to forget that emergencies do happen. And when there is a crisis, you'll need a nest egg to fall back on.

The Payroll Savings Plan is one of the easiest ways to make sure you've something saved for when you need money fast. When you participate in the Payroll Savings Plan where you work, an amount you designate will be set aside from each paycheck and invested in U.S. Savings Bonds. It's an effortless way to build up a reserve.

And now there's a bonus interest rate on all U.S. Savings Bonds—for E Bonds, 3 1/4% when held to maturity of 5 years, 10 months (4% the first year). That extra 3/4%, payable as a bonus at maturity, applies to all

Bonds issued since June 1, 1970 with a comparable improvement for all older Bonds.

Let's hope there are no troubled waters in your future. But remember, emergencies don't always happen to the other guys.

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. Tax may be deferred until redemption. And always remember, Bonds are a proud way to save.

Take stock in America.
Now Bonds pay a bonus at maturity.

IN THIS ERA of organized drag racing, Eddie Wayne "Butch" Miller of the Texan Motel is justly proud of his vast assortment of trophies, but last Saturday night, he captured his prize granddaddy of them all. This tall statue being emblematic of the annual Mississippi state trophy championship for cars in his class, on the quarter mile track held in Hattiesburg, Miss. Butch says the lions share of credit for his important win has to go to his pit crew of Eddie Haas, Rocky Ruffin and Dennis Bourgeois.

The paradise people look for is not a locality—it's merely a state of mind. To succeed—do all you can with what you have—and start working at it today.

Program Holds Awards Day

This past Friday, Waverly's Operation Upturn Recreation Program held their awards day program. The campers were presented awards for their achievements during the past summer's program. Certificates were awarded to the "Best Camper of the Year," Allan Lise, and to the "Most Camper of the Year," Debra Wilson. Others receiving awards were: Donna Ballentine, Allan Lise, Ernie Zimmerman, Shell Terry, Ricky

Terry, Grace Harrington, Kenny Fayard, Debra Wilson, Mary Cruden, and others. This activity brought to an end Upturn's Recreational Program for another year. Coach Batson and Coach Hitt agreed that the program was a successful and worthwhile cause, and would like to extend thanks to Upturn and to the parents for their co-operation and interest.

"IT'S TIME FOR A CHANGE"

(Ed. Pol. Adv.)

TO - THE CITIZENS OF HANCOCK COUNTY

We respectfully ask that you seriously consider the qualifications and experience of the candidates for the office of Hancock County's Member of the Mississippi House of Representatives. If you will do this, we believe you will vote for **WALTER JAMES PHILLIPS**.

To not re-elect **WALTER JAMES PHILLIPS** would be to make a change - only for the sake of change - not because a change is needed. **WALTER JAMES PHILLIPS** has served Hancock County well, his knowledge of the workings of the legislative process is valuable - it is an investment in the future of our County and the Gulf Coast - an investment that can only accrue to each of you if **WALTER JAMES PHILLIPS** is re-elected and allowed to use this knowledge and ability.

WALTER JAMES PHILLIPS is recognized as one of the leaders in the House of Representatives, other leaders listen to him and respect his opinions. He has meant much to Hancock County and to the Gulf Coast - and his respected tenure of office will let him do much for this area. **WALTER JAMES PHILLIPS** represents the young

man - he ran a good race in the first primary - we expect him to do so on August 24th - BUT, we sincerely believe if you - the voter - will carefully and sincerely review the qualifications of the two candidates for this high office, you will find no change is needed - and will vote for **WALTER JAMES PHILLIPS**.

As we, in Hancock County and on the Gulf Coast, continue to battle back and build back from Hurricane Camille, we need experience to represent us in the Legislature and with the Agencies of Government that can help us. **WALTER JAMES PHILLIPS** has shown that he can and will help us - let's reelect him and let him continue to help us.

There were changes made on August 3rd - there may be changes made on August 24th, and you - the voter - have and will decide what changes, if any, will be made, BUT can you honestly decide that a change is in order in your representation in the Mississippi House of Representatives? We believe not - we respectfully and sincerely ask you to join with us and re-elect **WALTER JAMES PHILLIPS**.

A Change Of Spirit

Can Please Your Taste

The cocktail you have at a party, or the drink before dinner at home should be chosen just the way you choose food—because the taste of it pleases your palate. But the under-18 rule makes it difficult to choose a particular kind of spirit because 1) the brand is currently phony; 2) the brand is usually phony; 3) it's what this band or brother drink; 4) they are not sure there are differences in flavor between the various types of alcohol.

It's the differences that count though in your enjoyment of a relaxing drink, the taste and the quality of the liquor. It works on the same principle as ice cream. You may not care at all for vanilla ice cream but might be delighted with chocolate once you've tried it, and most especially if the brand were the finest.

The white spirits, such as gin and vodka, have little flavor of their own (with the exception of the imported vodkas from Poland) and just take on the character of whatever they're mixed with. It is the amber-colored liquors that have their own flavor type and since these are usually sipped straight, or with neutral water or soda, the taste of the liquor counts. Scotches do not taste like bourbon, but neither does any one scotch or bourbon taste exactly like another.

America's own native contribution to the world's list of fine liquors is bourbon, which a Baptist preacher named Craig began distilling in 1789 in Kentucky (the liquor is named after Bourbon County, Kentucky). Bourbon is made from corn and it is the particular type of soft water from Kentucky springs that gives it character.

The very finest of Kentucky bourbons, Wild Turkey Kentucky Bourbon, runs 101 proof. The flavor is robust, definite, but so silky smooth that this particular "Gentle" of bourbons is often sipped neat to honor its quality. The character of bourbon, even in

the lesser qualities that Wild Turkey, is a big but soft textured taste.

The lighter Bourbons are more preferred today than the heavier ones, which are very full-bodied and somewhat grainy and hide basically from rye. Rye is often blended with other spirits to tone down its heavy flavor.

Scotch is a malt whiskey made from barley and gets its distinctiveness from the Highland peat, smoke and air. There are very heavy Scotches, somewhat similar to the Irish whiskey from which they evolved, medium-textured Scotch with a somewhat smokey taste, and the very popular light Scotches with a

delicate, clean taste. As with Bourbon, the quality of the Scotch indicates the truthness of its flavor, and also the age. A fine Scotch around eight to twelve years old is at its peak of smoothness and flavor.

Canadian whiskeys are blended whiskeys using various grains to attain a medium-weight flavor. Rum is classed as light or dark rum, but the color has nothing to do with the weight or the flavor. Light-bodied rums in either color come from Puerto Rico. Heavier flavored rums are from Jamaica and Haiti. Rums are usually mixed with fruit juices in cocktails and punches.

If you haven't been too comfortable with the taste of that convivial drink before dinner, try another brand and quality of the type of whiskey you drink, or be even more adventurous and try another type of whiskey altogether. But give your palate the chance it deserves. Start a new taste adventure with a top quality liquor—it makes all the difference in the world.

**THANK YOU
VERY MUCH**

I am deeply grateful for the wonderful vote and support that you gave me in the first primary in the race for Sheriff. I received 3231 votes and the second place candidate received 2526 votes, which gave me a 705 majority over my second primary opponent. This is one of the largest vote majorities ever received by a Sheriff candidate in the first primary.

The large vote that I received was a vote of confidence and an expression of approval of the way I treated the people when I served them as Sheriff in the past. It is also an expression of their desire for me to be their next Sheriff.

I thank those of you who voted for and donated your time and help in my behalf.

I also sincerely appreciate the people who supported other candidates in the first primary who have now offered their support in my behalf. I wish to express my appreciation to all of the election commissioners who labored so long and tirelessly and did such a fine job.

In the first primary I did not take part in the race of any other candidate and the second primary I want it known that I am running my race only, and that I will not become involved in any other race.

The first primary was only the halfway mark and I urge my friends and supporters to continue their hard work which will insure my election on August 24th, as your next Sheriff.

CREATE YOUR OWN CAESAR SALAD

Make your own family salads as unusual as the chef who created the original Caesar Salad. Whether the unique Caesar Salad was first made and served in Mexico or San Francisco is open to question. But with your own creativity and imagination to suit your family, we think that during this salad season—the summer season—you'll try this one.

FAMILY CAESAR SALAD

- 1 head western iceberg lettuce
- 1 small head romaine lettuce
- 1 egg
- 2/3 cup grated sharp cheddar cheese
- Salt to taste
- Freshly ground black pepper
- 1 to 2 cloves garlic
- 1 cup toasted croutons
- 1/3 cup Mazola corn oil
- 3 tablespoons cider vinegar
- 1 tablespoon lemon juice

Core, rinse and thoroughly drain lettuce. Refrigerate in plastic bag or crisp. Cook egg in simmering water 2 minutes. Chill immediately in cold water. Tear enough dry, crisp lettuce into large bite-size pieces to make 4 to 6 servings; chill remainder for use another time. Place greens in large salad bowl. Sprinkle with cheese. Break egg into small bowl; stir with a fork. Pour over lettuce. Sprinkle with salt and pepper. Squeeze garlic through press into salad or mince and add. Sprinkle on croutons. Mix corn oil, vinegar and lemon juice; whip with a fork. Pour over salad. Toss lightly to coat greens evenly. Serve immediately. Makes 4 to 6 servings.

TO ALL THE PEOPLE OF HANCOCK COUNTY AND ESPECIALLY BEAT 4.

Now that this campaign is coming to a close, I can say I have thoroughly enjoyed meeting and visiting in the homes of so many kind and friendly people. I sincerely solicit your vote in the August 24 election. I am old enough to understand the problems of the old, and young enough to understand the young people having two married children and one more on the way.

I earnestly solicit your vote on August 24 for the office of Justice of the Peace of Beat 4. In return I promise honesty, fairness and impartial justice to all.

Thank You,

THANKS

Aunt Sarah, I love you.

Remember my 10th birthday, when you gave me that funny piece of green paper and everybody made such a fuss over it. (Except me.) Frankly, it was a pretty disappointing present for a kid. I couldn't eat it, couldn't play with it, couldn't wear it—and Mom took it away from me practically the minute I got it.

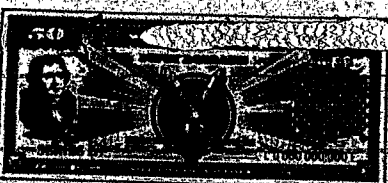

And every birthday after that (and Christmas, too), you gave me another one of those Bonds, you called them. I thought you were pretty gooney.

At least, I never had to guess what I was going to get from good old reliable Aunt Sarah.

And what I got was good old reliable U.S. Savings Bonds.

What I didn't realize then was that you gave me a gift of security for the future. Thanks to you and those Bonds, I had extra funds for college. And they helped when I bought my first new car.

Next week, I'm giving my nephew, Harry, his first U.S. Savings Bond. I know the kid is gonna think I'm some kind of nut. But, someday...

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. They may be deferred until redemption. And always remember: Bonds are a proud way to save.

Take stock in America.
Now Bonds pay a bonus at maturity.

THE SKY IS CHANGED—AND SUCH A CHANGE!

"The sky is changed—and such a change! O night, And storm and darkness! Ye are wondrous strong!"

Anyone who went through the hurricane named Camille experienced every human emotion on the night of August 17, two years ago. When the frightful storm struck the Gulf Coast between Bay St. Louis and Waveland just before midnight, which emotion was strongest in his mind? Was it—

Love? When the wind tore out his windows and made a shambles of his home, did his love for his wife and little children or his old folks transcend all other feelings and make him want, above all else, to gather them to a safe, protected place beyond all harm?

Fear? Did the shriek of the gale at 200 miles an hour, the crash of collapsing buildings and falling trees, and the rattle of debris against his own frail walls, bring gibbering terror to his soul and make him cry to gods or devils for peace and safety?

Anger? Did he rail against the savagery of the storm and want to fight its might and senseless power with his bare fists to re-cage Nature which had been so often soft and friendly?

Despair? When the winds and the angry tide swept away his cherished goods that he had worked so hard to acquire, destroyed in an instant his loved books and pictures and mementos, and left him without even a roof over his head, was the sense of loss so keen and overwhelming that it struck like a dagger to his heart and made all thoughts of tomorrow futile and useless?

That night there were many men and women who suffered under those emotions. When daylight came at last and they could see the devastation around them, grief for what had been was added to their burden. Also there was a feeling of helplessness, for how in the world could so frightful a mess ever be cleared up and how could they

begin to put things back in some kind of order?

Many simply gave up and left the loved area. But others, thousands of them, stayed their loins and dug into the debris. Neighbor helped neighbor, government engineers brought in their bulldozers and power equipment, courage and fortitude and determination were in the air, and within a remarkably short time many businesses were again in operation and homes were being made habitable again.

Today only a few scars are left on the land. But the wounds in the minds and hearts of those who trembled through that night will never be completely healed, for "things bygone are the only things that last; the past is stone, and stands for ever fast."

The miracle man of today has the ability to keep appearances up and expenses down.

THANK YOU

On August 3 in the Democratic Primary, the voters of Mississippi gave me a wonderful vote for State Treasurer. I want to thank my friends who were responsible for this victory. To those of you who voted for me I will be forever grateful. Thank you so much!

Jerry Ladner's Ten Points For Progress (AS PUBLISHED MAY 13, 1971)

- I. I shall always concentrate my untiring efforts toward the complete restoration and proper maintenance of your Beach Boulevard and sand beaches.
- II. I shall work diligently to promote the proper and suitable types of industrial growth for Hancock County, in order to afford our citizens an opportunity to work at home.
- III. In order to prepare our residents for local industries and better paying jobs, I propose a trade school within our County.
- IV. In order to protect your tremendous investment in our Port and Harbor, I will strive towards effective Business Management of this most important industrial artery.
- V. It shall be my responsibility to purchase and maintain County equipment and supplies in an honest and economical fashion. A County unit system has proven beneficial in many other areas and I am presently investigating such a plan for our people.

- VI. I shall request an official public audit of Hancock County funds prior to taking office and when elected I will offer on a regular basis, a financial report of all public funds.
- VII. I will institute a system of road building and maintenance for our area, that will attract residential, commercial and industrial growth.
- VIII. The municipalities of Bay St. Louis and Waveland will always receive dedicated assistance from my office toward solution of their problems.
- IX. I will establish a constant line of communications with the various State and Federal agencies that will be associated with the progress of Hancock County.
- X. As in the past, I shall always stand up for you, the people of our County and strive towards decision making, that are always for the good of the majority.

How Do You Like

Your City Hall

Bay St. Louis citizens - how do you feel about your City Hall? Do you like its appearance as it now stands, with traditional natural brick and white trim, or would you like a "new look" for the 65-year-old structure?

This is the question now being put before residents of the city by the Commission Council. Further renovations to City Hall by Operation Upturn will involve painting the exterior as well as changing the upstairs porch flooring. At this point, the city fathers felt that the citizens of Bay St. Louis should have the deciding vote on any changes to the graceful old landmark.

Those with a feeling of pride and an interest in the building may either fill out the short form below and bring or mail it to City Hall, or Mayor Carver advises that phone calls to the Hall will be accepted and recorded.

With the objectives listed as memorial, patriotic, benevolent, educational, and historical, it is the goal of the United Daughters of the Confederacy to organize new chapters in the 1971-1972 year.

Never in the history of this great country has there been a greater need for this patriotic organization. Every town, city, and hamlet should have this organization working to revive patriotism, a love of one's country, reverence of the flag, a healthy respect and knowledge of our ancestors, and to preserve the records of the courageous deeds of these great men and women who fought for the right of self-determination. Auxiliary Holds Regular Meeting

American Legion Auxiliary, Clement R. Bockamp Unit 133, held its regular meeting last Monday night in the American Legion home with Mrs. Lena Cuevas, newly installed president, presiding.

Following the business session Mrs. Cuevas introduced American Legion Commander E. D. Murtagh. Mr. Murtagh thanked Auxiliary members for their help during the past year and asked for their continued cooperation in the coming year. John Wilkerson, who will serve as liaison officer for the American Legion, was also introduced.

Mrs. R. J. Rehnke, Girl State chairman, who was presented by Mrs. Cuevas, in turn introduced three of the girls who represented their Unit at Girl State. Diane Kidd, Evelyn Murtagh and Leanna Benigno each explained their activity while at Girl State and expressed their appreciation for the opportunity to attend. Charlotte Piazza, who also attended Girl State, was unable to be there because of an invitation to participate in another Auxiliary program in Jackson.

The following committees were appointed by Mrs. Cuevas: Harvest Ball, Mrs. John Wilkerson and Mrs. Gilbert Gayant; Publicity and scrapbook, Mrs. John Wilkerson; Civil defense, Mrs. Lucien Kidd and Poppy chairman, Junior Auxiliary members Agnes Wilkerson and Bea North.

Mrs. C. J. Blazie, membership chairman, reported, and Mrs. Opal Myers reported on the rehabilitation committee. Plans were made to entertain the veterans in September. Hostesses for the social hour were Mrs. Henry Caplan and Mrs. Inby Charming. Mrs. Charles Harvey won the entrance prize.

Sets Readied For Next Play

Audiences attending the forthcoming Little Theatre production of "Plaza Suite", scheduled to open here on September 9, will see the theatre's first stage setting in its quarter-of-a-century history to be designed by an architect. Created by Fred Wagner, the set will depict a luxury suite of rooms in New York's Plaza Hotel, and the Plaza's sister hotel, the Royal Orleans, has offered its assistance in providing necessary equipment and uniforms.

Another innovation in the creation of the "Plaza Suite" setting is Mr. Wagner's method of constructing and painting each section completely before the final set is erected into place. Even the details of the art work are being done while the flats are still lying on the floor. When the setting is completed, it will be decorated by Mrs. Douglas Koger, who, with Mr. Wagner, is a co-producer of the show.

Working late these nights with hammers and paint brushes are Mr. and Mrs. L. A. Onstad, Mary Ellen Murphy, Dan Griffin, Lyle Coward, David Koger, Sharon Piazza, Rebecca Adams, and Lisa Wagner. Miss Murphy is also serving with Mr. Wagner as technical director, and Miss Adams is in charge of stage properties. Lights will be handled by Pat Murphy, sound effects by Ruth Furr, make-up by Mrs. A. B. Barrett, and hair styles and wigs by "Mr. Phil" of the Ramada Inn-Beauty Salon.

Directed by Burt Barrett, "Plaza Suite" stars Douglas Koger and Mrs. Virginia Wagner, with minor parts played by Mrs. Nannette Stroh, Brother Aquin of St. Stanislaus, Lisa Wagner, and L. S. Onstad. It will run for three nights the week-end after Labor Day. Hand-painted posters are by Mrs. Helen Genella.

Bridge over troubled waters.

It's easy to forget that emergencies do happen. And when there is a crisis, you'll need a nest egg to fall back on.

The Payroll Savings Plan is one of the easiest ways to make sure you've something saved for when you need money fast. When you participate in the Payroll Savings Plan where you work, an amount you designate will be set aside from each paycheck and invested in U.S. Savings Bonds. It's an effortless way to build up a reserve.

And now there's a bonus interest rate on all U.S. Savings Bonds—for E Bonds, 5½% when held to maturity of 5 years, 10 months (4% the first year). That extra ½%, payable as a bonus at maturity, applies to all Bonds issued since June 1, 1970... with a comparable improvement for all older Bonds.

Let's hope there are no troubled waters in your future. But remember, emergencies don't always happen to the other guys.

Little Theatre Receives Gift

For the second time last week, the Little Theatre has received a gift to come from the hands of local artists. Mrs. Helen Genella, 78, presented the Little Theatre with an oil painting of the theatre's lobby during the performance of "Camelot" and was greatly admired by those attending the play.

The painting is an angle view of the building, showing the entrance and one side along with the pine trees that surround it. The artist died at Hancock General Hospital on August 8. A resident of New Orleans, he had moved to Bay St. Louis five years ago.

I Pledge Allegiance

In the jungles of Guadalcanal there is a little monument that marks the spot where a Marine detachment was wiped out while fighting a desperate rear guard action. It says: "When you go home, tell them about us: for their tomorrow, we gave our today."

To the stars and stripes... the red, white and blue... to the memory of every fallen American... soldier, sailor, Marine, Air Force blue... from George Washington to our present leaders... the Bill of Rights and the Constitution... to freedom and the time-worn belief that equal opportunity is all that any American should ever demand to these things and more

How come
this kid
has more
money saved
than you do?

Because over the years his
parents have invested in
U.S. Savings Bonds—in
his name, for his future,
by participating in the
Payroll Savings Plan at
work.

He probably doesn't
even know. And right now,
he couldn't care less. But
when he's older, that
money can be used for a
lot of things—a car, a col-
lege education, or even a
new home.

The Payroll Savings
Plan is an easy way to
save money for you and
every member of your
family. When you join, an
amount you designate will
be automatically laid aside
from your paycheck and
invested in U.S. Savings
Bonds. It's a painless way
to save.

And now there's a bonus
interest rate on all U.S.
Savings Bonds—for E
Bonds, 5 1/2% when held
to maturity of 5 years, 10
months (4% the first year).
That extra 1/2% payable
as a bonus at maturity,
applies to all Bonds issued
since June 1, 1970... with
a comparable improve-
ment for all older Bonds.

Join the Payroll Sav-
ings Plan where you work
and make your son the
richest kid on the block.

Take stock in America.
Now Bonds pay a bonus at maturity.

LEMAY GRADUATES

Staff Sergeant Joseph Le-
may, son of Mr. and Mrs. James
Lemay, of 241 Washington St.,
Bay St. Louis, Miss., has grad-
uated from the U.S. Air Force
Noncommissioned Officer Lead-
ership School at March AFB,
Calif.

Sergeant Lemay, who was
trained in military management
and supervision, is a missile
mechanic. He is being assign-
ed to Minot AFB, N.D., for
duty.

The sergeant attended Val-
ensa C. Jones High School.

COMPLETES WORK

Cadet James W. Wheat, 21,
son of Mr. and Mrs. James
Wheat, Sr., Pearlinton, Miss.,
completed six weeks practical
work in Military Leadership at
the Army Reserve Officers'
Training Corps advanced sum-
mer camp at Ft. Bragg, N.C.,
July 30.

Wheat, who is a student at

FOOD FOR THE MIND.

A limited-time offer from one of the most recognized names in encyclopedias.

During the next few weeks, we're offering the complete 25-volume set of the Funk & Wagnalls Encyclopedia. Besides being one of the world's most popular encyclopedias, it sells for one of the world's most popular prices. You can buy a volume a week for only \$1.89 each. And the first volume for the introductory price of a quarter.

But don't let the low price scare you off.

The Funk & Wagnalls is a full-fledged encyclopedia researched and written by hundreds of scholars and Nobel Prizewinners.

It has over 10,000 pages and 5,000 illus-
trations—including a full color World Atlas.

It's durably-bound to resist the ravages of
time and children.

It's written in clear, simple English.

It's not designed for scholars or children,
it's designed for families. Children can use
it to help with schoolwork, and parents can use
it to help keep up with children.)

And it covers over 30,000 subjects—or about
as many as encyclopedias that cost hundreds of
dollars more.

But unlike other good encyclopedias, which
are sold through salesmen, the Funk &
Wagnalls is available only through super-
markets. That way you don't have to pay

the cost of somebody to sell it to you.

Which means that to own a good
encyclopedia, you no longer have to
be rich.

You just have to be in the
right place (ours) at the right
time (now).

Know The Candidates

By Adree Shortle
Echo Staff Writer

One of the most difficult things for a voter during a political campaign is to get to know really know the candidates running for offices. Therefore, as a service to Hancock County voters, the Sea Coast Echo has interviewed candidates running in the second primary. Each candidate was asked the following two questions:

(1) HOW DO YOU FEEL YOU ARE QUALIFIED FOR THE OFFICE YOU ARE SEEKING?
(2) IF ELECTED, LIST SPECIFICALLY THE WAYS IN WHICH YOU WILL IMPROVE THE OFFICE? (For incumbents: LIST SPECIFIC PROGRAMS YOU PLAN TO IMPLEMENT.)

Candidates for county supervisor were asked a third question:
(3) APPROXIMATELY WHEN DO YOU PLAN TO IMPLEMENT THE COUNTY UNIT SYSTEM AS ADOPTED BY THE PRESENT BOARD OF SUPERVISORS?

For Superintendent Of Education

For Superintendent of Education
K. G. McCarty - Didn't return interview form.
Eugene Ladner - Didn't respond to messages concerning interview.

For Sheriff

James A. Ladner - Born, raised and educated in Hancock County. Present occupation pipe fitter, no previous public offices.

Answer, Question (1) "Was nominated for Sheriff by Young Men's Christian Association and initiated for Jaycee Distinguished Service Award. I believe that my three years service as a First Sergeant has enabled me to approach law enforcement with a fresh point of view."

Answer, Question (2) "Accurate, up-to-date card index of all arrests and convictions in Hancock County. A 24-hour patrol in both rural and city areas. Work closely with all law enforcement agencies in Hancock County; that is, Bay St. Louis, Waveland and constables of each district."

Sylvan J. Ladner - Born, raised and educated in Bay St. Louis, St. Stanislaus graduate. Present occupation, agent for L&N Railroad. Previous public offices, seven years a City Commissioner, two terms (6 years) sheriff and tax collector, Hancock County.

Answer, Question (1) "During two terms as sheriff attended FBI Training School, Miss. Highway Patrol Dept. and Law Enforcement Officers Training School, Univ. of Miss. Also attended refresher courses every six months."

Answer, Question (2) "Will have special drug unit to combat growing narcotics problem before, not after, it takes over in the county. Will have uniformed deputies and marked patrol cars for 24-hour seven day a week county and surveillance. All deputies will attend Law Enforcement Training School in Jackson. Will initiate an active Junior Deputy Sheriff organization."

For State Representative

Walter J. B. - Born in Florida, life in Hancock County. Graduated Bay High School, B.S. and Law Degree from University of Mississippi. Present occupation, attorney.

Answer, Question (1) "The office to which I seek re-election is a legislative position and I believe that my education and training as an attorney best qualified me for this position. In addition experience and ability play an important part in the legislative process and my 15 years of service to the legislature makes me the ideal member of the House of Representatives from the Gulf Coast area."

Answer, Question (2) No answer submitted.

James A. Ladner - Born, raised and educated in Hancock County. Present occupation, justice of the peace. District 1, previous public office.

offices, Deputy Sheriff, office and field work.

Answer, Question (1) "I have served in a leadership capacity for the past 5 years. I have been a member of the executive branch of our government for three years and a member of the judicial branch for the past two years. I've had to make decisions that were to effect the future lives of many individuals. I have worked in connection with most branches of our local, state, and federal government. I honestly and sincerely enjoy working for a cleaner and better government."

Answer, Question (2) "(1) I will let the people of Hancock County know their representative. (2) I will establish an office in the Court House and will have established office hours. (3) I will publicly inform the people as to what I'm doing. (4) I will publish my attendance record in the legislature each year and inform the people about the legislation I am in favor of and that legislation to which I am opposed. (5) I will faithfully visit the schools in our county each year and let the young people meet their representative. At the same time I will inform them as to the jobs available to them by the state."

For Sheriff

Answer, Question (1) "More than 20 years in public offices as supervisor and member of the county school board in positions with executive responsibilities. As a supervisor I have a good record of accomplishments in the county. I have always maintained a positive cash balance in all my beat accounts every month and have never had to go to a bond issue or borrow from other accounts to maintain and improve roads, bridges and general conditions in my beat. I have been personally responsible for bringing industry into the county which increased county employment and revenue. I have always operated my beat in a business-like and productive manner."

For Supervisor Beat 3

Answer, Question (2) "I will continue a program of improvement for all roads and bridges, will work toward increased employment opportunities, and will be concerned with overall county economy while developing industry or anything that will be to the best interests of Hancock County."

Answer, Question (3)

"I think I made my position clear at the last two board of supervisors' meetings."

Answer, Question (1) "Civic minded, 25 years experience in successful businesses, stable family with good reputation, ability to handle difficult situations, no ax to grind, I have the time and ability."

Answer, Question (2) "Implement county unit system to maximum benefit of all; establish priorities on badly needed improvements and work in an organized fashion to successfully conclude them; establish emergency food for the people."

Answer, Question (3) "I would like to study all unit systems and know more about it to know what would be best for Hancock County."

Supervisor Beat 4

Answer, Question (1) "I was raised and graduated from high school in Hancock County. Finished two years at Pearl River Junior College. Present occupation, salesman at Turan-Lane. No previous public offices held."

Answer, Question (2) "I feel that I have enough education and leadership ability to serve the people, and make the county's decisions facing our county today."

Answer, Question (3) "My main goal is to acquire industry, provide a better road system, work to establish more training programs for skilled labor."

LARRY E. BRELAND

DO YOU KNOW THAT THESE ARE THE DUTIES OF A SUPERVISOR

Each county has five supervisors who serve as the legislative and executive branch of the county government, and in effect the jury commissioners for the county. Supervisors levy all county taxes and taxes of school districts except municipal districts. They borrow money for the county, construct and maintain roads and bridges; employ county patrolmen and approve budgets for the expense and maintenance of the sheriff's office. Supervisors make zoning regulations for land outside municipal limits, manage county lands, including 16th section school lands. They equalize assessments made by the county tax assessor, establish hospitals, and economic development districts. Provide ambulance service, provide for paupers.

Actions by board in almost all cases must be unanimous as required by law, supervisors prepare jury lists from which county and circuit court venires are drawn.

PLEASE CONSIDER MY QUALIFICATIONS BEFORE MAKING YOUR DECISION.

INDEPENDENT

EXPERIENCE IS THE KEY!

INDEPENDENCE IS THE BEST ANSWER!

When I was first elected to fill an unexpired term as Supervisor, I had a lot to learn. In the six and a half years in office, I learned a lot. I made mistakes, I did a lot of good things, but most of all I LEARNED.

I learned that each Supervisor has to be INDEPENDENT... he has to think for himself, not take orders from somebody behind the scenes.

"I think the lessons I learned during those 6½ years in office and what I have seen and learned since then have TAUGHT ME PLENTY."

I know the job. I know the pitfalls. I have LEARNED.

Elect me, and I promise you four years as a sincere, experienced, INDEPENDENT Supervisor working for the best interests of Beat 1 and ALL of Hancock County.

Beat 5

Russell Elliott - Born in New Orleans, 116-year-old resident of Hancock County. Graduated from St. Stanislaus College, attended St. Vincent's Seminary. Present occupation Supervisor, Beat 5, broker. Previous public offices held, Justice of the Peace.

Answer, Question (1) "I was president of the board of supervisors the past four years, also served as the recovery from Camille and led the county to its biggest and best condition. I know state and federal programs and know how to implement them for Hancock County."

Answer, Question (2) "I have a Council for the Aging, trade and industry, complete Port and Harbor, continue to induce industry and jobs to the county, complete airport, same reason, complete beach, road, increase tourist trade and assist our beach front property owners to recover their great loss; create activity for our young people such as a drag strip, parks and educational programs."

Answer, Question (3) "As soon as all legal requirements are complied with."

James N. Travirca - Born in Humboldt, raised and educated in Hancock County. Present occupation, general contractor, no previous public offices held.

Answer, Question (1) "I have over 20 years of experience in construction, supervision, budget and control, maintenance and planning, contracts and negotiations, and scheduling. I have been active in community affairs, and feel that I have a knowledge of the needs of our County. I think I can bring a successful businessman's approach to County Government."

Answer, Question (2) "A regular schedule of night Board meetings."

Fulltime Secretary to the

Board, in a new building, house, to receive and entertain, answer questions, etc. when addressing the day-to-day routine of the office.

First a CPA firm to keep the county books, with a periodic publication of the financial condition of the County in easy-to-read, easy-to-understand style.

Recommend appointments to boards and commissions on the basis of qualifications and ability. There is a wealth of talent among our citizens who need only the opportunity to serve.

I am in favor of some form of mechanical or computer voting machine.

I think we need to have well advertised public hearings on controversial issues.

An extensive review of our commitments to Federal, State and Regional groups and associations.

Answer, Question (3) "I think the present Board acted prematurely in adopting a plan for others to implement. I am in favor of waiting for the R & D Center report which was requested by the Chamber of Commerce."

Of course, if R & D Center help has not been requested by the present Board, as reported in the paper, I will ask for it. We would do well to have a system designed for the specific needs of Hancock County."

Pahlman Participates In M.S.U. Program

John Edward Pahlman, son of L.S. Pahlman of Bay St. Louis, is participating in the Cooperative Education Program at Mississippi State University while working for a Bachelor of Science degree in electrical engineering.

Under this five-year program he is receiving not only his regular college education but also two years of practical experience in electrical engineering.

In addition to this experience he receives a salary. This financial reward is only one of the many advantages of the Cooperative Education Program.

Pahlman is completing a work semester with South Central Bell Telephone Company located at Jackson, Mississippi, and will be returning to the Mississippi State campus for the fall semester.

During this work semester Pahlman says his duties have included, "becoming familiar with the functions and operations of a South Central Bell Telephone centralized assignment center."

He says of this work assignment, "A very good work assignment with South Central Bell which has afforded me practical experience in my field of electrical engineering."

Pahlman is one of the many State students taking advantage of the Cooperative Education Program which is available in agriculture, arts and sciences, business and industry, education, engineering and the school of forestry resources.

ATTENDS COURSE

Dr. Walter C. Russo, optometrist at Bay St. Louis, Mississippi, was a member of the continuing education course, Ocular Pharmacology, held at Southern College of Optometry, Memphis, Tennessee, on August 14-15.

Optometrists from 16 states up-dated their knowledge of eye pharmacological and the effects of medication and drug abuse on the eye and vision.

Pharmacologists Paul L. Kendall and C. Lynn Green of Memphis conducted the course.

SECOND WEEK OF EACH MONTH
8th thru 14th

THIRD WEEK OF EACH MONTH
15th thru 21st

FOURTH WEEK OF EACH MONTH
22nd thru 28th

Residents are urged to put out trash early in week of their designated week and to refrain from putting out trash when their area is not due for collection.

Bay Plans New Trash Schedule

If you think you have a technical skill, think about my Reserve.

A new system for trash collection in the city of Bay St. Louis will go into effect September 1, according to Mayor Warren Carver.

The city will be divided into four sections and trash trucks will pick up in each section one week a month, for a week. The trucks will spend a week work-

ing each section until all trash that is put out streetwise has been collected. Residents are urged to put out trash early in the week of their collection to expedite rapid pickup, and are reminded that only easily-handled trash will be picked up, as formerly specified by the city.

The four section maps pictured in this paper this week will give residents an indication of the approximate areas to be covered in each week. One week prior to the start of the program, a larger map of the first section and dates of collection service for that sec-

tion will be published as a reminder. A suggestion to cut out maps and date schedules and post at home is offered by Seeger who also said maps and schedules information will be available to sanitation crews, at City Hall as well as the Sanitation Dept. office on Carroll Ave.

This new program has been worked out to provide city residents with a more complete and efficient trash collection service.

It will be a more economical system, he pointed out, as working by sections cuts personnel, equipment and time costs.

Mr. and Mrs. George Mayfield of Bay St. Louis announce the arrival of their first child, a son, Jason Scott, July 27, at Hancock General Hospital. He weighed eight pounds, 10 ounces.

Mrs. Mayfield, the former Nikki Romanoff, is the daughter of Mrs. Gordon C. Romanoff of Bay St. Louis and the late Mr. Romanoff. Mr. and Mrs. James L. Mayfield of Waveland are the paternal grandparents.

Mr. and Mrs. William P. Kimbrell announce the arrival of their second child and first girl, August 16, at Hancock General Hospital. She weighed nine pounds.

Mrs. Kimbrell, the former Mary Ann Becker, is the daughter of Mr. and Mrs. Andy Becker of this city. Mr. and Mrs. Paul S. Kimbrell of Waveland and New Orleans are the paternal grandparents.

BAY ST. LOUIS sanitation crew members Glen Pace, Gilbert Pace and John Carver are shown here with city department heads Walter Sanders, Mayor Warren Carver and Felix Seeger. New program for city-wide trash collection will go into effect September 1.

ACEVEDO JOINS SUMRALL FOR GOOD GOVERNMENT

Attorney Robert M. Acevedo of Biloxi, a candidate for District Attorney in the First Primary on August 3, here by whole heartedly endorses and solicits the vote and influence of all his friends and supporters for Thomas B. Sumrall for the office of District Attorney.

We, as Independent Candidates, have waged a vigorous and outspoken fight for good government.

During the first primary numerous candidates for many offices have demonstrated convincingly the need for drastic changes in the policies and practices of the District Attorney's Office if the Gulf Coast is to realize the full potential of its God-given blessings.

Mr. Acevedo stated, "I have known Mr. Sumrall and Mr. Nease throughout my years in the Practice of Law on the Gulf Coast, and after serious consideration of the candidates who have offered themselves for the office of District Attorney, it is my sincere belief that THOMAS B. SUMRALL could best serve the interest of Harrison, Hancock, and Stone Counties. Therefore, in consideration of my aim for good government, I earnestly solicit your vote and influence for THOMAS B. SUMRALL."

Corn was unknown in Europe until the 15th century when Columbus brought the first "New World" maize back to "Old World" Spain.

The Pilgrims were the first colonists to taste popped popcorn — a gift from the Indians at the first Thanksgiving dinner!

Little things can mean a lot to modern corn growers, and many add small amounts of a minor element like Sequestrene zinc chelate to their soil — to break through "yield barriers" caused by micronutrient deficiencies.

According to legend, corn-meal "hush-puppies" were named because they were fed to noisy dogs — to make them quiet down!

B.W.Y.C. Ends Summer Season

On August 14 and 15 final races of the summer season were held at Bay-Waveland Yacht Club, completing the season of all participating skippers and crews for the sailing championship within the Club. Trophies will be presented Sunday, August 22, for "Cock of the Walk" (leading Expert skipper), A-Class, Junior Class, Crew and Smiths. Results of the last race are:

A-Class-Mary Eagan, first, followed by Buzzy Leasure, Bobby Egan, and Charlie Chapman.
Junior Class-Amy Chapman, first, followed by John Gordon, Roney Stiefel and Hunter Daniels.
Expert Class-Mary Eagan, first, followed by Woody Stiefel, Jack Gordon and Harry

man, first, followed by Dennis Stiefel, Hunter Daniels, Brad Crull.
LIPTON ELIMINATIONS
A six-race Round Robin will be sailed at Bay-Waveland Yacht Club among the six leading expert skippers August 21 and 22 to determine the four-man team which will represent Bay-Waveland in the 1971 St. Thomas Lipton Regatta to be held at Pensacola Yacht Club Labor Day weekend.
A skippers' meeting will be held at 10 a.m. August 21. Start of first race will be at 11 a.m.
The six qualifying for the elimination are Don Chamberlain, Jack Gordon, Harry Chapman, Bill Reeves, Woody Stiefel and Marc Egan.

FARMERS' FORUM

THE LATEST NEWS AND VIEWS ON FARMING

Whether you call them minor elements, trace elements or micronutrients, a lack of these minuscule substances in the soil can mean the difference between problem fields and record yields.

Zinc deficiency, for instance, is a frequent cause of "yield barrier," which is one way of saying that crops don't respond as well as they should to increased fertilizer. This frequently happens where subsoil is exposed by erosion or excessive land leveling, in peat and muck soils, and in highly leached sandy soils.

Then, too, the deficiency can occur where available zinc is "tied up" in the soil in a form the plants can't use. This happens where soils are highly limed or are high in phosphate. Crop experts advise that this is becoming an increasingly significant problem because of the greater use of high analysis fertilizers to push yields higher. Not only do higher yields use more zinc, but the addition of high rates of phosphate accentuate the tie-up.

How is zinc deficiency detected? Corn growers may notice signs on the upper leaves. They become striped and take on a whitish-green color near the stalk. In severe

cases, the plants are stunted. Experienced growers, however, are learning that the best way to prevent or clear up zinc hunger is by adding small amounts of zinc chelate, like Sequestrene to their soil.

A chelate is a compound formed by combining metal with an organic mixture which acts like a claw — holding the metal ion and preventing it from readily entering into soil reactions. Unlike other sources of micronutrients, such as sulfates and chlorides, metal chelates can not become tied up, but remain in a soluble form the plants can absorb.

Further, zinc chelates can be applied dry or as a liquid and, thus, can be combined with dry or liquid fertilizers.

What about results? Chelates have shown unusual success in boosting yields in zinc deficient areas and have been equally effective in lifting "yield barriers." In one series of tests, small amounts of Sequestrene zinc added to the soil increased corn yields five to ten bushels an acre.

In a time when every bit of productivity counts, little things like minor elements can prove to be of major importance.

**TO ALL VOTERS
AND
CONCERNED PEOPLE
OF
HANCOCK COUNTY:**

Once again I ask you to stand up and be counted. I have stood up and been counted for you the people on every issue that has ever come before the Board for seven years and eight months; I can honestly and truthfully say that I have cast my vote on every issue for what I thought would be the best for every man, woman and child in this county.

I have only missed one meeting since I have been elected to this office; I have run my office to the best of my ability; my record speaks for itself; I have never operated my beat in the red; the present balance of \$38,000.00-plus in Beat #2 funds tells a story within itself.

Beat #2's men and equipment have not only worked in Beat #2, but in almost every nook and corner of this county, Catahoula, Rocky Hill, Kiln, Fenton, Dedeaux, Standard, Crane Creek, Bay St. Louis, Waveland, Bayou LaCrosse, Lake Shore, Clermont Harbor, Anslay, Pearlgrin and others communities. Now, I ask you, the people in these areas, to help me so I can continue to serve you.

Hancock County business is big business; won't you vote for and support a man with a proven record? There is no substitute for experience in office—12 years as your County School Board member and two terms as your Supervisor places Dolph Kellar in a position to better serve you.

On Aug. 3, I received more than 45 percent of the vote for re-election to another term. I received 3,684 votes out of about 8,000 cast. In the area where I am best known, from Kiln north, I got six times as many votes as my nearest opponent, who also lives there. The people who know us best expressed their opinion overwhelmingly.

I am seeking re-election in the August 24th runoff, and I solicit and will appreciate the votes of all county citizens who approve my position, who want honesty and efficiency in office and who know that I will continue, as I always have, to represent the people properly, openly and fairly.

I thank you for the overwhelming vote of confidence and support you gave me in the first primary, and I solicit the continued help and support of those who worked so hard for me.

I appeal to you, the voters of Hancock County, to join me in the runoff so that I can continue my crusade for fair, honest and efficient government.

Go to the polls August 24th; vote your choice. Only you and your Lord knows how you vote when you are in the booth. Thank you again.

Each year, American manufacturers use almost 2.3 billion pounds of soybean oil!

So popular were soybeans in ancient China — an emperor wrote a book about them 5,000 years ago!

On light soils, soybean-oil meal is a popular fertilizer because it adds humus to hold moisture and replenishes the earth with its high nitrogen content.

Little things can mean a lot to modern soybean growers, and many add small amounts of a minor element like selenium, manganese, cobalt, to their soil — to break through "yield barriers" caused by micronutrient deficiencies.

Rich in protein, soybeans are prime candidates for use in synthetic foods of the future to help feed the world's exploding population!

Vacationers: Beware!

To give his family a summertime treat, Ernest piled them into a trailer and drove to a nearby lake. Renting space in a trailer park, he settled down for two carefree weeks.
But on the day of departure, Ernest came down with a galloping case of poison ivy. In fact, it was so severe that he determined to claim damages from the management of the trailer park.
"The poison ivy was growing right there on the premises," Ernest charged in court. "It was up to them, as owners of the land, to get rid of it."
However, the court decided that Ernest had no legal kick coming.

Accordingly, a court held the federal government liable for the accident. The court said the camper should have been given enough facts "to provide an opportunity for an intelligent choice as to whether he wished to incur the risk."

Nor does a vacationer assume the risk of outright negligence by those in charge. Thus:
At a lake resort, a woman bather cut her foot badly on a

fragment of glass just offshore. Early that morning, the cleanup man had found and removed several broken bottles on the beach nearby. But he had neglected to find out whether any of the glass had found its way into the water. The woman later sued the owner of the resort for damages, and the court ruled in her favor. The court said her injury was not due to any hazard of the great outdoors, produced by Nature, but to plain and simple carelessness, produced by man.

Hammer - Burden Vows Exchanged

Our Lady of the Gulf Catholic Church was the setting Saturday, August 14, for the 17th Ann. ceremony which united in marriage Miss Susan Louise Hammer, daughter of Mr. and Mrs. George Hammer of Bay St. Louis, Miss., and David Edwin Burden, son of Mrs. William E. Burden of Memphis, Tenn. and the late Mr. Burden. Reverend John Kelly, assistant pastor, celebrant of the Nuptial Mass, performed the double ring ceremony. Baskets of white gladioli decorated the altar and maiestas and potted palms flanked the

Given in marriage by her father, the bride wore a gown of silk organza over peau de soie with a racoon neckline and traditional sleeves. The empire A-line dress was embellished with embroidered Alencon lace and tiny seed pearls. A matching lace encircled the skirt. Her long Mantilla edged with Alencon lace fell from a small caplet, and she carried a cascade of Stephanotis, gerberilla and callidum flowers centered with an orchid.

Miss Beth Colson, Bay St. Louis, attended the bride as maid of honor. Bridesmaids were Misses Fahey di Benedetto and Vivian Hammer, sister of the bride of Bay St. Louis, and Barbara Anglin of Dallas, Texas.

They wore floor length floral pink voile dresses in shades of gold, brown and green with white garden hats trimmed with pink ribbon, and carried basket

Following the ceremony a reception was held at the American Legion Hall, Green Meadow Road.

The bride's table, overlaid with a lace cloth, was centered with a four-tiered cake trimmed with yellow spun sugar roses and sugar swans. The top tier held the traditional bride and groom flanked by cherubs and roses. Silver candelabra were on either side.

Miss Mary L. Regus of New Orleans and Mrs. George Benedetto, aunt of the bride, of St. Louis, presided at the table and Miss F. S. Schenck and Mrs. Danny Hutchinson served punch. The guest register was kept by Miss Maria Benedetto.

Mrs. Hammer chose for the occasion a beige peau de soie lace empire styled dress with matching accessories and pink cymbidium orchid sash.

Refusal to Work

Out of work? To millions of people in that predicament, unemployment compensation has been a Godsend. But in order to collect those weekly checks, you have to be willing to take another job if one turns up.

This raises problems. How billing do you have to be? If the job is good but the hours are bad, must you accept anything—or lose your right to compensation? Generally speaking, the law makes reasonable allowance for hardship cases. For example, an unemployed woman was offered a job on the night shift at a nearby factory. When she refused to take it, her unemployment compensation was cut off. But in a court case, she told the judge that she would have to walk home in the dark through a tough neighborhood—and that she had been terrorized twice by nocturnal assaults.

The judge decided that her refusal to take the job was justified, and ordered her compensation payments reinstated.
